What are the benefits of cloud?

Always up to date
Release cycles run in weeks, not years

Build for a mobile workforce
Correct from anywhere, anytime

Avoids disruption
Greater resilience and security than on-site

Fully integrated
Works with cloud apps like G Suite and Office 365

Easy to maintain
Reduces the burden on IT management

Proven secure
Audited, professional security practices

Cisco cloud calling offers distinct advantages

Secure calling with encryption and carrier-grade cloud infrastructure.

Global regulatory expertise and compliance across all markets served.

Easier control for IT through simple web portals.

Option to get the best of cloud services while leveraging existing investments, or go straight to the cloud and avoid major capital outlays.

It’s not an all-or-nothing solution.

Find the balance that’s right for you:

1. Evaluate your current system for costs and agility
2. Consider your calling and collaboration needs today and in the future
3. Find a partner that addresses your major concerns
4. Decide which cloud-based services make sense now
5. Plan how to integrate cloud-based apps into on-premises platforms
6. Create a long-term plan for your organization

Webex Calling not only enables you to upgrade your PBX network with a secure cloud solution, but also extends your capabilities to meet future collaboration needs.
