

Network modernization

# Transform WAN and connectivity

Agile and secure managed SD-WAN, branch LAN, Wi-Fi and home networks

## What differentiates us

We're innovating and investing heavily in every layer of network infrastructure, from mobile, internet, cloud and data center, to security and SD-WAN services.

<b>Top 100 global innovator</b> in Clarivate Analytics	Investing in the next innovative technology frontier <b>USD 500m</b> venture fund	<b>#1 Data center</b> by TeleGeography
<b>17,000+</b> patents	<b>5,000</b> research professionals	<b>R&amp;D USD 3,6bn</b> annual spend
Virtual network functions (VNFs) delivered from <b>75 local cloud centers</b>	<b>Top 5 IP backbone</b> by CAIDA	SD-WAN pioneer <b>15+ years</b>

This enables us to offer **differentiated networking solutions with enhanced end-user experience for our clients.**

### Interconnecting the world's biggest businesses, enabling digital collaboration

- One of the **largest IP backbones** in the world
- Global Tier-1 IP network** spanning Americas, Europe, Asia and Oceania
- One world, one network**  
One AS Number (2914)
- API access and integration with **1,000+ local providers and ISPs**

**More than 85%** Fortune Global 100 choose us

**High-speed direct cloud connect**

We provide secure optimized access to over 5,000 cloud and SaaS applications, and interconnect with all major public cloud providers, including: **Amazon Web Services™, Microsoft Azure™, Google Cloud Platform™.**

## Gartner®

We've been named a **Leader in the 2023 Gartner® Magic Quadrant™** for Network Services, Global\* for the **tenth consecutive year.**

## Stay nimble with asset-lite branches

 <b>Agile branch networks</b> Fast service deployment Set-up new branches quickly Adapt services at existing outlets without waiting	 <b>Complete branch service control</b> Complete service visibility Consistent operations Eliminate security loopholes	 <b>Maintenance is never a problem</b> Resilient cloud infrastructure Eliminate downtime risk and management overheads	 <b>Better cost control</b> Services in the cloud Shift capital outlay into OpEx Make cost more predictable	 <b>Instant service upgrades</b> Protect entire branch network Maintain optimal performance
--	--	---	---	--

**We can help you deliver an agile WAN, branch and work-from-home network supporting hybrid cloud and delivering solid application performance** no matter where the application resides, or where users connect from, in a cost-effective and secure manner.
