

# Managed Cloud Services for Oracle® PeopleSoft

## End-to-End Oracle PeopleSoft Hosting

**From human resource management (HRMS) to supply chain (SCM) and customer relationship (CRM) management, Oracle PeopleSoft solutions are designed to address the most complex business requirements.**

**But day-to-day application and infrastructure maintenance can stretch the limits of IT staff. With NTT PeopleSoft Hosting and Application Management, businesses can quickly enjoy the benefits of hosting applications in the cloud.**

### **Scalable, Secure, and Cost-effective PeopleSoft Hosting**

NTT's PeopleSoft Hosting and Management Services make it easy for businesses to host PeopleSoft applications in the cloud. Flexible deployment options allow businesses to choose the deployment model that's best for their business and their budget. NTT can manage PeopleSoft applications onsite or at one of our state-of-the-art data centers.

NTT maintains your environment at the release or patch level with expert support for future migrations or upgrades. From security to disaster recovery, we have technical teams ready to support your PeopleSoft environment. PeopleSoft Hosting provided by NTT, will help save organizations time and money in sourcing, configuring, and managing, freeing teams to focus on business growth.

### **Enterprise Level Security and Compliance**

NTT provides the highest security and compliance for business critical applications and data from world class SSAE 16-compliant datacenters and by utilizing ITIL and COBIT standards and processes. From security to disaster recovery to compliance, we have technical teams ready to support your PeopleSoft environment.

### **Why NTT for PeopleSoft Application Hosting and Management?**

#### **Zero Downtime Tolerance**

Our primary focus is to provide mission-critical application hosting with zero tolerance for downtime.

#### **Single Platform**

NTT owns its data centers and controls the entire solution stack (Data centers, infrastructure, etc.).

#### **Certification**

SSAE Type II SOC 1 Certification (formerly SAS70 Type II) ensures compliance for operations and data centers.

#### **Industry-leading Service Level Agreements**

NTT deliver comprehensive and industry-leading SLAs with penalties for non-performance.

### Highest Security

NTT uses the most advanced monitoring technologies and experts to safeguard business data 24x7x365. Multiple layers of security are provided, including dual-biometric access and aligned ITIL processes.
